

# BIG DATA INSTITUTE OXFORD

# BIG DATA INSTITUTE

*University of Oxford*

Our Highline Manual system was installed across opening vents at the University of Oxford's Big Data Institute.

The Big Data Institute Building is Oxford University's new centre for medical research. The building is seen as a new tool in Oxford University's search for new medical discoveries.

The system was supplied through GIG Fassaden, who are a Façade Manufacturer based in Austria. GIG pre-installed the system on their opening vents at their manufacturing factory before shipping to the Oxford site for installation. Our larger 380mm Chain Openers were installed to achieve the vented air requirements to maintain a healthy indoor environment.

## PRODUCTS:

**T150**  
Chain Opener 380mm

**T260**  
Midi Operator 380mm

**T400**  
Conduit
